- 1.** Cut out pattern pieces carefully from felt, be as accurate as possible. Make sure your two tree pieces match when placed on top of one another.
- 2.** Using blanket stitch (aka button hole stitch) sew your tree pieces together from 'a' to 'b' across the top end of your tree. Before you sew up the rest of the tree trunk, begin stuffing your branches using a stuffing stick or skewer. Once your branches are full continue sewing up the trunk, leaving the gap noted on pattern for stuffing. Cut 'base' piece from cardboard and trim it down a little so that it will fit inside the base of the tree. Sew in your base and then insert the cardboard piece through the gap left for stuffing. Fill the rest of the tree with stuffing and sew up gap. Sew your autumn leaves on top the tips of the branches, do as many as you like!
- 3.** To make your pumpkin, sew your six segments together (using blanket stitch) with the long sides attaching to each other, forming a ball shape. Fill with stuffing before sewing up the last seam. Next make a gathering stitch along your pumpkin stem and pull tight to gather up the long strip so it looks a bit curly. Tie off the gather so it doesn't undo. Sew on the pumpkin leaves. Attach the small circle of green felt onto the pumpkins centre then attach the pumpkin stem with leaves.
